HOW TO
Grow
Groot

Prepare soil in pot.

Plant seeds according to the directions.

Groot needs water and sunlight to grow.

Use your imagination and watch for your Groot to sprout.

I AM GROOT

1. Cut the template along the solid lines.
2. Fold the paper along the dashed lines.
3. Fold flaps B, C, and D down away from the font of the seed packet.
4. Turn the packet over and glue the surface of B and C.
5. Fold and stick flap A onto the glued surfaces and let the glue dry.
6. Fill the packet with plant seeds of your choice.
7. Fold flap D down and glue it in place.
